

JOURNAL OF RENEWABLE ENERGIES

Revue des Energies Renouvelables

Volume 28, Issue 1

June 2025

**Published by the
Renewable Energy Development Center**

(Centre de Développement des Energies Renouvelables)

BP. 62 Route de l'Observatoire Bouzaréah 16340, Algiers, Algeria

ISSN: 1112-2242

EISSN: 2716-8247

Legal Deposit 1177-98

Journal of Renewable Energies

Volume 28, Issue 1 (2025)

Editorial Team

Editor in chief:

Amar HADJ ARAB, Director of Research
Renewable Energy Development Center (CDER),
Algiers, Algeria

✉ a.hadjarab@cder.dz

Co-Editor in chief:

Ouahiba GUERRI, Director of Research
Renewable Energy Development Center (CDER),
Algiers, Algeria

✉ o.guerri@cder.dz

Associate Editors:

Solar PV and Hybrid systems

Mohamed BENBOUZID, Professor
Electrical Engineering, University of Brest, France

✉ mohamed.benbouzid@univ-brest.fr

Abdelghani HARRAG, Professor
Département d'Electrotechnique, Faculté de
Technologie, Université Ferhat ABBAS, Sétif

✉ abdelghani.harrag@gmail.com

Notton GILLES, Professor
Université de Corse Pascal Paoli, France

✉ notton@univ-corse.fr

Djamila ZIANI REKIOUA, Professor
University of Bejaia, Algeria

✉ djamila.ziani@univ-bejaia.dz

Solar Thermal

Mahmoud BOUROUIS, Professor
Universitat Rovira i Virgili - Campus Sescelades:
Tarragona, Spain

✉ mahmoud.bourouis@urv.cat

Technical support:

Mohammed DEBBACHE
Renewable Energy Development Center (CDER), Algiers, Algeria

✉ m.debbache@cder.dz

Secretary:

Rafik HALALCHI
Renewable Energy Development Center (CDER), Algiers, Algeria

✉ s.revue@cder.dz

Wind Energy systems

Fateh FERROUDJI, Director of Research
URER MS, Renewable Energy Development
Center, (CDER), Algiers, Algeria

✉ f.ferroudji@cder.dz

Bioenergy and Environment

Noureddine YASSAA, Professor
Commissariat aux Energies Renouvelables et à
l'Efficacité Energétique, Algiers, Algeria

✉ n.yassaa@cerefe.gov.dz

Dr Majda Amina AZIZA, Director of Research
Renewable Energy Development Center
(CDER), Algiers, Algeria

✉ m.aziza@cder.dz

Journal of Renewable Energies

Revue des Energies Renouvelables

Volume 28, Issue 1 (2025)

Table of Contents

Recovery of Fatty Waste from Wastewater Treatment Plants through Anaerobic Codigestion: Improvement of the Agronomic Potential of Digestates <i>M. Dieng, F.K. Toure, N.A. Ndiaye, A. Kane, A.A.M. Diouara, M. Faye and F.M. Sambe</i>	5 - 13
Three Hour Ahead PV Power Forecasting with Bidirectional Recurrent Networks: Insights into Monthly Variability <i>F. El Robrini and B. Amrouche</i>	15 - 38
Non-fullerene OSC: The effects of active and electron transport layers' thickness towards 19.5% efficiency <i>B.Y. Kadem and R.K.F. Alfahed</i>	39 - 51
Optimal Sizing and Placement of Renewable Energy Sources in Power System Connected Multi-Microgrids <i>A. Brik, N.El-Y. Kouba and A.A. Ladjici</i>	53 - 67
Development Of An Automatic Sun Tracking System On Solar Panels As Electric Power Supplier At Smart Garden <i>W. Sasmitaninghidayah, B.C. Pakartilinuwhi, I. Tazi, A. Abtokhi, Mutmainnah and S. Suhaimi</i>	69 - 80
Low-Cost Real-Time Monitoring for Enhanced Efficiency in PV Systems <i>A. Rouabhia, R. Dabou, A. Abderrahmane, A. Ziane, A. Bouraiou, S. Khelifi, N. Sahouane, A. Necaibia and M. Blal</i>	81 - 92
Urban Green Spaces as a Solution to Urban Heat Island: The Cooling Effect of Sétif's Amusement Park <i>A. Ballout, I. Boukhelkhal and Y. Bouchahm</i>	93 - 120
PV Module Surface Area Maximisation for Enhancing Performance <i>M.O. Okello</i>	121 - 134
Electromagnetic shielding properties of polymer blended with graphene sheets and iron oxide particles <i>M. Makhoulf, S. Bouriche, Z. Benmaamar and D. Villemin</i>	135 - 150
Liquid-sensible heat storage units for short-term low-temperature applications: configurations and thermal analysis <i>A. Bouraba, A. Boulemtafes Boukadoum, S. El Mokretar, H. Semai and A. Amari</i>	151 - 167
Hardware-in-the-Loop Implementation of the Hybrid FPA-P&O Approach for Optimizing Photovoltaic Systems under Partial Shading Conditions <i>F. Bettahar, S. Abdeddaim and A. Betka</i>	169 - 185
HOMER sizing of a Diesel-PV-Battery hybrid system to supply an isolated site in southern Algeria <i>H.M. Bahamida, N. Fekari, Y. Bakelli, A. Kaabeche and Y.Z. Bouzouaoui</i>	187 - 205
The vertical architecture of parallel flow field high temperatures proton exchange membrane fuel cell and its effects on the consumption of reactants and products <i>Y. Aouabdia, M. Laidoudi and N. Outili</i>	207 - 221

Acknowledgments

The editor-in-chief thanks the editorial staff of the journal, the reviewers, and the administration of the CDER who contributed to the publication of this issue.
