

Journal of Renewable Energies  
*Revue des Energies Renouvelables*

# **The First International Conference on Advanced Renewable Energy Systems**

ICARES'2022, 18-20 December, UDES,  
Bou-Ismaïl (Tipaza)

Solar Equipments Development Unit, Tipaza, Algeria

**Unité de Développement des Equipements Solaires, UDES,  
Centre de Développement des Energies Renouvelables, CDER,  
42004, Tipaza, Algeria**

## Table of Contents

Fuzzy Logic PI controller based Direct Torque control of a Self-Excited Induction Generator through a three-level Rectifier <i>K. Berabez, F. Hamoudi, K. Idjdarene and I. Hacini</i> .....	1 - 12
Using two-dimensional graphene lenses to increase the effectiveness of solar panels <i>A. Boudiar, H. Bendifallah and F. Ziani</i> .....	13 - 18
New graphical interface for Sizing PV systems <i>F. Bouti, K. Touafek, H. Haloui and A. Khelifa</i> .....	19 - 29
<i>Improved Fuzzy Logic MPPT Controller of Stand alone WECS-based PMSG under Stochastic Wind Environment</i> <i>R. Cheikh, B. Boualem and H. Belmili</i> .....	31 - 42
Maxi dual axis solar tracker system <i>K.G. Ghalem, M.I. Ziane, A. Hamoul and R. Ghenni</i> .....	43 - 50
Numerical Simulation Study of CIGS-based Thin Film and Heterojunction Solar Cells: Doping and Buffer/Absorber Layer Optimization for Maximum Efficiency <i>L. Ghalmi, S. Bensmaine and C.E.H. Merzouk</i> .....	51 - 63
Energy Management of a Photovoltaic System with Hybrid Energy Storage Battery-Super capacitor <i>I. Hacini, S. Lalouni, K. Idjdarene and K. Berabez</i> .....	65 - 74
Effect of dust on the operation of photovoltaic solar panels installed in the Hodna region - Experimental study <i>Z. Haddad, A. Nahoui, M. Salmi and M. Aidjadj</i> .....	75 - 82
Improving Photovoltaic Technology by Nanomaterials: a Brief Review <i>A. Hassaine and A. Mahi</i> .....	83 - 92
Triple junction solar cell with Cu In <sub>1-x</sub> Gex Se as absorbents layers <i>A.M. Laoufi, L. Mousli and B. Dennai</i> .....	93 - 102
Indoor Lighting Study: case of UDES' Solar Smart House Bou-Ismaïl-Algeria <i>A. Meflah, F. Chekired, F. Akel and Y. Yasmine</i> .....	103 - 113
Comparative study of the sputtering yield and photovoltaic efficiency in photovoltaic materials <i>S. Merabet</i> .....	115 - 123
Wind Turbine-Fuel Cell Power System for Supplying Isolated Sites <i>A. Meziane, F. Meziane and S. Zouaoui</i> .....	125 - 138
LMDI decomposition analysis of change in energy consumption in the non-energy industrial sector: The Algerian case <i>S. Robei, N. Settou and D. Messaoudi</i> .....	139 - 148
Measurement and Simulation of 2.25 kWp grid-connected amorphous photovoltaic station in a hot desert environment <i>L. Zaghba, M. Khennane, A. Fezzani, A. Borni and A. Bouchakour</i> .....	149 - 161
