EISSN: 2716-8247  
Legal Deposit 1177-98

## Table of Contents

Integrated Square On-Chip Inductor for Photovoltaic Converter Applications <i>M. Derkaoui and Y. Benhadda</i> .....	3 - 11
Enhancing Wind Turbine Efficiency: A Comparative Study of Two Innovative MPPT Control Algorithms <i>Z. Larabi, K. Ghedamsi, D. Aouzlag and F. Nafa</i> .....	13 - 21
Robust Control of DFIG Wind Turbines in Sub/Super-Synchronous Operation Using Integral Backstepping Controller <i>H. Itouchene, F. Amrane and Z. Boudries</i> .....	23 - 31
Energy Management Applied To Non-Autonomous Photovoltaic Station For Hybrid Vehicle Loading <i>K. Djermouni, A. Berboucha, K. Ghedamsi, D. Aouzellag and S. Tamalouzt</i> .....	33 - 45
Use of the dual stator induction machine in a hybrid renewable energy pumping system <i>A. Adjati, T. Rekioua and D. Rekioua</i> .....	47 - 58
Enhancing wind power conversion efficiency with Vernier DSPM generator and sliding mode control <i>A. Redouane, R. Saou, C. Guerroudj and A. Oukaour</i> .....	59 - 70
Control of a Wind Turbine based on DFIG by Improved Direct Torque Control using Fuzzy Logic <i>K.F. Sayeh, S. Tamalouzt, D. Ziane, Y. Sahri, B. Deffaf and S. Lalouni Belaid</i> .....	71 - 78
Enhancing Photovoltaic Array Performance through Optimizing Power during Mismatch Conditions under Series-parallel (SP) and Total Cross-Tied (TCT) Configurations <i>L. Abad, S. Tamalouzt, K. Djermouni and K.F. Sayeh</i> .....	79 - 86
Enhancement DTC Control for SEIG in Variable-Speed Wind Turbines, Associated with an Energy Storage System <i>K. Berabez, I. Hacini, F. Hamoudi and K. Idjdarene</i> .....	87 - 97
Compare between the performance of different technologies of PV Modules using Artificial intelligence techniques <i>H. Hafdaoui, N. Belhaouas, H. Assem, F. Hadjrioua and N. Madjoudj</i> .....	99 - 106
Energy management for renewable electricity production system including hybrid hydrogen sub-system <i>N. Zidane and S. Lalouni Belaid</i> .....	107 - 115
Design and testing of a parabolic solar concentrator with automatic tracking system <i>Y. Mebarki and A. Belkaid</i> .....	117 - 129
Study and sizing of a multi-source pumping system <i>K. Amrouche, R. Abdelli and N. Benhacine</i> .....	131 - 141
Simulation of Lightning Strikes on Photovoltaic Farms <i>K. Nacereddine, A. Boubakeur and A. Mekhaldi</i> .....	143 - 154
